

Is Your Business Information Safe?

Are you keeping your business information safe and secure?

If not, just one small breach could cause your business to come to a screeching halt.

Don't miss this opportunity to hear from the Federal Bureau of Investigation (FBI) and National Institute of Standards and Technology (NIST) the steps you can take to keep your business running smoothly.

Workshop Highlights:

- ◆ **Discover the most common types of threats and how to battle them**
- ◆ **Learn Best Practices and procedures to operate more securely**
- ◆ **Keep current with the latest technologies that will reduce your exposure**
- ◆ **Receive a checklist of FREE resources available to your business**
- ◆ **How security breeches can impact your business**

Don't let your sensitive business information fall into the wrong hands!
